1. GENERAL INFORMATION

1.1 Host City Stara Zagora

Stara Zagora is the centre of Stara Zagora province. With more than 8000 years of history, it is one of the oldest continuously populated places in Europe. Centre of booming industry, remarkable cultural life and numerous tourist attractions, the beauty of the city of linden continue to be an appealing destination for travellers.

Situated almost in the geographical centre of Bulgaria, Stara Zagora is linked with major roads and railroads to the rest of the country and the neighbouring Turkey, Greece and Romania. In less than 4-hour drive, you can be in all these three countries by very decent roads.

Stara Zagora enjoys very mild winters, long springs and falls. Thanks to the big amount of trees, the summers in the city are not very hot, with specific micro-climate.

In the city limits of today Stara Zagora, the place was continuously inhabited since the Neolithic (8000 + years ago) through the times of the Thracians, to achieve its glory in the past during the Roman times. Then the city was called Augusta Traiana and it was one of the most prominent cities in the Roman Province of Thrace. Huge avenues, covered with marble slabs, lined with statues, and a large amount of archaeological artefacts remain from this period, including the Roman Walls and Gate of the city, mosaics and the Roman Forum. During the centuries to follow, the city was called Beroe, Irinopolis, Eski Zagra and finally – Stara Zagora (old city behind the mountain).

After its rebuilding in the end of the 19 and beginning of the 20th century, Stara Zagora became one of the few Bulgarian cities build on grid. This was also the time that the large boulevards and small streets were lined up with linden trees, giving the city the aroma of late spring perfume so enchanting in the beginning of June.

Stara Zagora was also called the city of “poets” since many Bulgarian poets were born, spend their lives and created amazing poetry here, in the inspiring surroundings of one of the most prominent cultural centres in Bulgaria. Stara Zagora also has the first Opera House built outside of the capital Sofia, one of the oldest telephone communication systems and the first robotics plant in Bulgaria.

Now it continues to be the centre for prosperous cultural life, and important industrial and agricultural centre.

8.4 Scoring

The European Athletics Team Championships comprises one single competition where men's and women's teams represent as a single team the respective European Athletics Member Federation.

The winner of each individual event and each relay in each match shall score as many points as there are teams competing in the respective League, the second will score one fewer, and so on. Athletes or relay teams with no valid performance, disqualified or not finishing shall not score.

If two or more athletes tie for a place in any event, the attributable points shall be divided equally between them.

The team having the highest aggregate number of points shall be the winner of the European Athletics Team Championships 2nd League 2015.

If two or more teams have the same aggregate number of points, the tie shall be decided in favour of the team having the greater number of event winners. If the tie still remains it shall be decided in favour of the team having the greater number of second places, and so on. (Regulation 602.12).

8.5 Competition Bibs

Each competitor will receive 3 competition bibs with the athletes' number. One must be pinned to the front of the competition clothing, one to the back, and one to the bag. Exceptions are made for High Jumpers and Pole Vaulters: these competitors are permitted to attach the bib only to the front or to the back of their competition clothing (plus their tracksuit and bag).

The competition bibs will be provided to the teams after the Technical Meeting.

The competition bibs must not be cut, folded or covered or ruined in any way.

8.6 Competition Clothing & Shoes

Competitors must wear the Federation's official team clothing. IAAF Rule 8 & 143 will be strictly applied. Please make sure to follow the IAAF Advertising Regulations in force, available at <http://www.iaaf.org/about-iaaf/documents/rules-regulations#regulations>. Clothing and items not conforming to this rule and the current IAAF Advertising Regulations will be removed or taped at the call room.

The European Athletics has a record of the Team vests of all Member Federations, available on European Athletics' Event Management System, Arena, accessible at the following link: <https://arena.european-athletics.org/>.

Member Federations shall confirm their team vests. If the uniform displayed differs from your current official uniform, a full set of photographs must be uploaded to Arena, using relevant form in Word format. In case of any new uploads and/or changes, Competition Department of European Athletics shall be notified immediately at competition@european-athletics.org. Otherwise, the existing records will be used as reference.

Team clothing must be uniform. A competitor wearing any other clothing will have no access to the competition area and will not be allowed to compete.

This rule applies both to competition clothing (vest, shorts and tights) as well as to tracksuits.

8.7 Specific Competition Regulations

8.7.1 Field Events except vertical jumps

There will be a maximum of four trials per competitor in each event. All participating athletes will have three qualification trials (1st, 2nd and 3rd trial). The best 4 athletes after the 3 qualification rounds will compete in the Final (4th round).

The athletes eliminated after the third trial will be ranked by their best performance after the 3rd qualification trial. The remaining 4 athletes will be ranked by their best performance after the Final (4th round). IAAF Rule 180.22 will apply for ties.

8.7.2 Vertical Jumps

In the vertical jumps, the IAAF rule 181.2 shall be respected. Furthermore each competitor is limited to a maximum of 4 (four) fouls throughout the whole field event. After the fourth foul he/she may not jump further unless he/she has won the competition.

The winner of the competition is allowed to continue according to IAAF Rule 181.2. The winner will be allowed to continue at the height he/she was not successful. IAAF Rule 181.8 will apply for placings.

The time permitted for each attempt in High Jump and Pole Vault shall be 1 (one) minute except when consecutive attempts are made by the same athlete or if only the winner is competing in which case IAAF Rule 180.18 shall apply.

8.8 Starting Order and Distribution of Athletes per heat

The order of attempts in **field events** is decided by a draw conducted by European Athletics. Each participating team is allocated a letter which determine the order of attempts in the field events in accordance with the appropriate chart as Appendix 4.

In the **horizontal field events** the order of trials in the first round will be kept for the first 3 trials. The order of the trials in the final round will be the reverse order of the ranking after the 3rd round.

In races up to 400m inclusively, the Technical Delegate will conduct the draw of the lane allocation after the final confirmations for 100m, 200m, 400m, 110m H, 100m H and 400m H. Lanes 3-4-5-6 will be allocated to top four athletes/relay teams and lanes 1-2-7-8 will be allocated to the remaining athletes/relay teams. The distribution is under the discretion of the Technical Delegate, who will consider as much information as possible about the performances of all athletes. In principle, the distribution will be based on the athletes' season best performances.

For the relay races the Technical Delegate conducts the draw one hour before the races.

For the races up to 400m inclusively, the heats are being arranged by considering as much information as possible about the performances of all athletes and the heats drawn so that, normally, the best performers compete in the same heat.

Lanes 3-4-5-6 will be allocated to top four athletes/relay teams.

Lanes 1-2-7-8 will be allocated to the remaining athletes/relay teams.

Special Draw for relay races

For the relays, the teams' distribution per heat will be according to the teams scoring standings 1 (one) hour before the scheduled time for each event.
